**Subject: MD SUPPLIER FULL APPROVAL CERTIFICATION AND SUB-CONTRACTORS.
INITIAL FULL APPROVAL**

Dear Sir / Madam,

Messier-Dowty approves and authorizes your company to supply Products / Services to Messier-Dowty purchase orders. It is advised that your company's scope of approval and any restrictions/delegations that may have been placed on your company are viewed on the Messier-Dowty Internet Global Supplier Directory.

The controlled Supplier Approval Status & duration is located in the Intranet and Supplier Extranet portal of Messier-Dowty.

According to your personal request, Messier-Dowty can deliver a Certificate of Approval including duration, scope of work, restrictions/delegations placed on your company.

The duration of this Approval is at least 3 years. An Approval Assessment will be carried out every 3 years for an extended period of 3 years as long as your company will not be disqualified for any reasons.

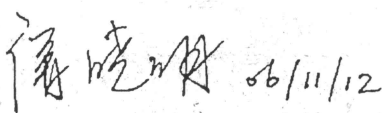

Please ensure that you have a robust process in place to ensure that for each process specification listed on the part you are supplying, a specific process approval has been issued and is listed on the GSD, before shipping the part. Suppliers identified to be manufacturing parts with process specifications being un-approved, will find that parts are either quarantined on receipt or returned as Suspect Unapproved Parts.

The Internet GSD is updated each month and is accessed by entering the following information:

Web Address: <http://www.messier-dowty.com>

Please confirm your acceptance of the enclosed Certificate of Approval to the undersigned.

Yours faithfully
for Messier-Dowty

XiaoMing Lian
Supplier Quality Engineer/Specialist
